**DALLAS COLLABORATIVE
FOR CAPITAL ACCESS**

An Ecosystem for Underrepresented Founders

The Dallas Collaborative for Capital Access (DCCA) is dedicated to convening the entrepreneurial ecosystem to close the access to capital gap by educating business owners on how to increase their chances of securing funding and connecting them to capital providers whose mission is to fund underrepresented small businesses. We will act as resource navigators connecting Southern Dallas businesses with essential capital resources.

Catalyzed by the 2022 [Dallas Capital Access Study](#), which highlighted significant barriers faced by Black and Latinx businesses in Dallas County, revealed that 53% were declined by nonprofit lenders, 31% of entrepreneurs surveyed did not know why their loan applications were declined, and 51% didn't apply due to fear of rejection.

The DCCA will make access to capital more obtainable. Get connected to free training, resources and business support.
