- **HB 2325 by Metcalf** strengthens coordinated disaster-related and safety communication between government entities and the community.

**Requires use of texting, adoption of interstate agreements, and better data collection and sharing for 2-1-1.**

**Budget rider also adopted.**

The background of the slide is a photograph of a highly ornate, domed ceiling. The ceiling features a central circular skylight surrounded by a series of rectangular panels, each with a decorative border. The overall color palette is warm, with gold, cream, and light brown tones. The architecture is classical, with intricate carvings and moldings. The lighting is soft and even, highlighting the details of the ceiling's design.

Big wins,  
some disappointments,  
and still more to do
